## Profile

Passionate and motivated third-year student at PICT (Pune Institute of Computer Technology) with a strong aspiration to excel in the fields of Web Development, AIML and space research.

## Project

### POLICE-FEEDBACK SYSTEM

- Developed a Police Feedback System using the MERN stack (MongoDB, Express, React, Node.js) to create a user-friendly platform for citizens to provide feedback and reviews on police services.
- MongoDB database was chosen for its flexibility, scalability, and ease of use, particularly suitable for storing unstructured or semi-structured data like feedback responses.
- React.js was used for the front-end development to create an interactive and responsive user interface for capturing feedback from users.
- Google API was used to make it multilingual.

### E-COMMERCE WEBSITE

- Developed an E-Commerce website using HTML, CSS, JavaScript to create user friendly platform.

## Skills

- Programming: Java, C++, Python
- Core Subjects: Data Structures and Algorithms, Object Oriented Programming, Database Management System, Software Engineering, Computer Networks, Operation Systems.
